

Alpharetta, March 28th 2016

Dear Valued Supplier,

We are pleased to announce that Allnex is undertaking a major transition to a new, company-wide Enterprise Resource Plan (ERP) system that supports our long-term growth strategy and strong commitment towards excellence in servicing our customers and other key stakeholders.

The purpose of this investment is to provide a common ERP platform in all regions, implementing a major internal transformation initiative aimed at expediting overall transaction processing.

The program has been rolled out in several waves starting in October 2014 with successful implementation in Europe and Asia in 2015. The final phase will transition all our US, Canada and Mexico facilities to the new system as of **May 1, 2016**.

The transition to our new ERP platform could impact the way we are operating with our suppliers. With the implementation of our new ERP system the Allnex raw material codes will change. We will further communicate in the coming weeks on any other possible changes, if any.

Thank you in advance for your support and cooperation in this important initiative for our company, our customers, and other key stakeholders. Please share the information about this upcoming change accordingly within your organization.

If you have any additional questions or concerns, please contact your Allnex Procurement representative.

Sincerely yours,

A handwritten signature in blue ink that reads "John F. Moore".

John Moore
Allnex, North America Procurement Director
