

**Appendix H
Botany, NSW, Australia**

**Pollution Incident Response Management Plan (PIRMP)
Communication Procedure**

Introduction

The objective of the procedure is to ensure a comprehensive and timely communication about a pollution incident to the EPA and other relevant authorities, including people outside the Botany Site who may be affected by the impact of the pollution incident.

This document is part of the Pollution Incident Emergency Response Plan (PIRMP) developed for the Botany site (NSW) in compliance with the requirements of the Protection of the Environment Legislation Amendment Act 2011.

Procedure for notifying the relevant authorities

If the pollution incident presents an immediate threat to human health or the environment the relevant authorities are to be notified in the following order:

Fire & Rescue	000
EPA (Environment Line)	131 555
Ministry of Health (Prince of Wales Hospital, Randwick) <i>Ask for public health nurse</i>	02 9382 8333 (business hours) 02 9382 2222 (after hours)
SafeWork NSW	131 050
Local Authority (Bayside Council)	02 6399 3666

If the pollution incident does not require initial combat agency then the relevant authorities are to be notified in the following order:

EPA (Environment Line)	131 555
Ministry of Health (Prince of Wales Hospital, Randwick) <i>Ask for public health nurse</i>	02 9382 8333 (business hours) 02 9382 2222 (after hours)
SafeWork NSW	131 050
Local Authority (Bayside Council)	02 6399 3666
Fire & Rescue	1300 729 579

Procedure for notifying adjacent companies and neighbours

If a pollution incident occurs with the potential of harming residents, property or the environment in the neighbourhood, the NSW Police Force will assume the responsibility for notifying those likely to be affected from the incident. The Botany Site Management Team will assist the police with the communication process.
