

Connecting regional needs with global expertise: allnex at Paintistanbul 2026

RELEASE DATE:

Frankfurt am Main / June 8

- allnex co-exhibiting together with our trusted partner Kimteks at Paintistanbul 2026
- Highlighting global expertise aligned with regional needs of the customers
- Emphasizing technologies most relevant to the region, featuring waterborne epoxy launch campaign solutions, innovation for roofing applications and introducing the new allnex additives sample rack

allnex will co-exhibit with its trusted regional partner Kimteks at Paintistanbul 2026, the largest paint and coatings industry gathering in Eurasia, taking place in Istanbul, Turkey, from June 17-19.

At booth 5C06, allnex will present a strong portfolio of solutions tailored to regional market needs, with a focus on core applications, relevant technologies, most recent innovations and spotlight its additives portfolio with a focus on the new sample rack concept.

Strategically located at the crossroads of major global regions, Turkey offers an dynamic environment for international business partnerships and projects. For allnex customers and partners, it goes far beyond product supply. allnex provides:

- Direct access to **technical know-how** and local market understanding
- Hands-on **support from global technical teams** to refine formulations
- Practical help **solving real application challenges**
- **Faster development and innovation**, from idea to market

At this year's exhibition, allnex will highlight key solutions designed to meet the region's evolving requirements:

- **Waterborne resins** for high regulatory demands – Acrylics, ACURE®, Alkyds, Polyurethanes, Polyesters, Epoxy hardeners, Polyols
- **Solventborne resins** for high-performance industrial coatings – Acrylics, ACURE®, Alkyds, SCA resins, Polyesters, Epoxies & hardeners, Hydrophobic polyols
- **Radiation curing** for speed – Acrylate oligomers (urethane-, polyester- and epoxy-based), Reactive diluents, Waterborne UV resins, Monomers, Dual cure
- **Powder coatings** for robust applications - Polyester resins, Acrylics, UV

allnex is a leading global manufacturer of industrial coating resins and additives. With a 75-year heritage, over €2.2 billion in revenue and 4,000 employees worldwide, our focus is to create innovative chemistry for all nex>t generations, driven by the needs of our customers and a swiftly changing world. We do this with a research and production network spanning 35 countries, a workforce representing over 50 nations and an all-in dedication to innovation, sustainability and reliable partnership.

Beyond a wide range of industry classics, allnex is known for its leading role in new chemistries such as UV-curable and low-bake resins, as well as for its sustainable ECOWISE™ line. As part of PTT Global, our main markets are Mobility and Transportation, Packaging and Consumer Goods and Construction & Infrastructure. In addition to tailor-made solutions for coatings, we offer an advanced portfolio of resins for composites.

**INNOVATIVE CHEMISTRY
FOR ALL NEX>T GENERATIONS**

powders

- **Crosslinkers** for high-performance curing - Amino, urea & Melamine crosslinkers, Phenolic resin

In addition, visitors are invited to step in to discover our newest waterborne epoxy solutions, fresh from our latest launch. At the core of the campaign is a simple value proposition: better durability, smoother application, more reliable processing, and faster results.

What are the highlighted products?

- With BECKOCURE® EH 2270w/50WA, **we raised the bar in corrosion protection**
- With BECKOPOX™ EP 2376w/60WA, **coatings are built to glide**
- With BECKOPOX™ EP 2352w/54WA, **systems are made for tough conditions**
- With BECKOCURE® EH 2250w/41WA, **we bring speed in every drop**

Visitors will get a first look at an upcoming innovation focused on heat management, durability, and measurable energy savings for roofing applications, **helping reduce surface temperatures while extending roof lifespan.**

allnex will also spotlight its additives portfolio through its new sample rack concept—turning individual samples into a structured, comparable, and ready-to-use system. Designed to support formulators more effectively, the racks make solutions easier to access, evaluate, and apply, bringing efficiency and clarity to product selection. The new sample rack is available to order on the allnex [website](#).

allnex additives featured in Paintistanbul 2026:

- **Wetting and dispersing** - ADDITOL® XW 6588 DISP ; ADDITOL® XL 6592 DISP ; ADDITOL® XL 6577 DISP
- **Flow and leveling** - ADDITOL® XW 6586 FLOW ; MODAFLOW® LAMBDA ; ADDITOL® XW 6580 FLOW ; MODAFLOW® NSR 100
- **Defoamers and deaerators** - ADDITOL® XL 6544 XFOAM ; ADDITOL®XW 6601 XFOAM ; ADDITOL®XW 6597 XFOAM
- **Driers and catalysts** - ADDITOL® CF 100 DRY

Reflecting on the collaboration and presence at the show, Kimteks Marketing & Communications Leader, **Sercan Genc** commented, *"Kimteks Kimya is proud to exhibit together with allnex at Paintistanbul, building on a long-standing partnership of over 35 years. Over the years, this exhibition has become more than just an event for us; it is a well-established tradition and part of our shared industry legacy. As allnex's official distributor in Turkey, we combine global product expertise with deep local market knowledge to deliver added value to our customers. Paintistanbul serves as a key platform for us to engage with visitors, share insights, and present innovative solutions. We look forward to welcoming our customers once again and exploring the latest trends shaping the coatings industry together."*

We look forward to welcoming visitors in Istanbul and continuing to build strong partnerships across the industry.
Join us at the booth 5C06.
